KIM KUSHNER

What inspires my songwriting?

Life's happy moments, traveling to beautiful places, spending time with my three sons and granddaughters, and the people and experiences that have touched my life.

What do I enjoy most outside of music?

Hiking in the beautiful North Carolina mountains, enjoying nature, and appreciating life's simple pleasures. And also finding healthy recipes to experiment with!

Where do I find inspiration?

Often in unexpected places! A beautiful landscape, a meaningful conversation, or a special memory can spark an idea for a song.

What do I love most about songwriting?

Turning personal experiences and emotions into songs that others can relate to.

What do I hope listeners take away from my music?

I hope my songs leave listeners feeling motivated, hopeful, inspired, and at peace with themselves. Most of all, I hope my music encourages people to believe in themselves, embrace life's possibilities, and move forward with greater confidence.
